

The Economist/YouGov Poll

Week 46: 1,000 registered voters, interviewed October 11-12, 2008

Margin of error: $\pm 4\%$

The margin of error measures only sampling variability, and does not adjust for other types of non-sampling error, such as non-response, panel participation, and misreporting.

The survey was designed by Samuel Popkin of the University of California, San Diego, and Douglas Rivers of YouGovPolimetrix and Stanford University.

The Economist/YouGov poll tracks popular opinion on a weekly basis through November 4th 2008. Polling is carried out by YouGov/Polimetrix for publication in *The Economist*, and on the Economist.com website every Thursday at www.economist.com/yougov.

Table 1: Who do you think you will vote for in the Presidential election in November?

	Total	Age			Race			Gender		Party Identification			Vote Choice
