Joseph P. (JOE) Conner age 62; born & raised Tulsa Oklahoma. Active in politics. I believe Hawaii needs a two party system in Congress and state offices. A good old boy system causes the Invitation of continuing ignoring laws, stopping corruption and political favoritism. Oklahoma 40 Years ago were identical to Hawaii. One party, stories about favoritism. A Republican was elected; today the state has grown greatly because the voters saw that a two party system does work. Yes I am new to Hawaii, the next person to fill U S House of representatives Patsy Mink's position regardless of who or which party he or she is from cannot step in and fill that position as smooth or as effectively as Patsy Mink did for a period of time. Hawaii can show respect for this important position by electing for the very first time a Republican who can work directly with the present Republican leaders in Washington. Married four children, two Greatgrand children and a wife who is in education. We must work to stop the removal of the very fought for planks in our government regarding the words "UNDER GOD". America is a country we are proud to be a part of. Hawaii like the next Representative is young . Political party's working together can and shall be one Country "under God for the freedom of ALL. Mahalo, your vote "IS" important, use it Wisely... Joe Conner
