As a passionate advocate for the preservation of Hawai'i's agricultural lands and rural life style, I have been actively involved in community service during my sixteen years on Maui. I assisted in the founding of the State of Hawai'i Green Party and have previously been a candidate for the Maui County Council.

Among my concerns: inspections, not war, on Iraq; free universal health care; lower taxes for workers and the middle class; protection of worker and union rights; tougher penalties and laws against corporate greed; energy independence for Hawai'i; support for renewable energy sources; public financing of elections; protecting Hawai'i from rampant over-development.

I hold a Bachelors Degree in Political Science from Bradley University and a Masters Degree in Public Law from American University in Washington, D.C. I have been a volunteer mediator, including mediating in Maui's Small Claims District Court, for a dozen years, and served on both a Maui County Commission and as a member of the Mayor's Task Force on Higher Education. Currently, I am President of the Board of the Ha'iku Community Association, serve on the Board of Directors of Akaku, Maui's public access television, and producer/host of the popular live call-in public affairs talk show, MAUI TALKS-TV.

There being little difference between the Democrat and Republican parties, I believe my candidacy as a Green most closely reflects the values and concerns of the late Patsy Mink and therefore best represents the constituents of the 2nd Congressional District in their long tradition of supporting democratic ideals.
