On the whole, Nevada's tax system works pretty well and the Governor and State Legislature should make only minor changes to make it work better. Nevada attracts business and jobs with the current system and the system typically generates enough taxes to meet our needs.

Nevada's tax system is so unfair that the Governor and State Legislature should completely change it. Nevada never takes in as much as the state needs to properly fund government programs.

(OTHER/SOME) People say that Nevada's tax system generally works well. They say times are unusually hard across the country, as most other states have major budget problems too. Making all businesses pay more in taxes will only end up increasing the state's unemployment rate and budget shortfall.
